

FIRST ASCO – SEMCO EDUCATIONAL CONFERENCE

Multidisciplinary Cancer Management Course

(MCMC)

5 – 6 April 2007, Cairo, Egypt

Organized by:

South and East

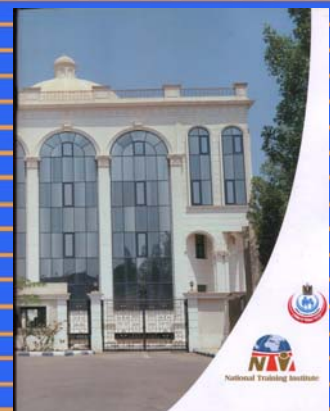

Mediterranean College of Oncology

(SEMCO)

National Training Institute

Nasr City

Cairo - Egypt

Welcome

The South and East Mediterranean College of Oncology (SEMCO) is pleased to inform you that for the first time, the *American Society of Clinical Oncology (ASCO)* will hold its Multidisciplinary Cancer Management Course (MCMC) in the region.

The main theme is "the Multidisciplinary Management of Breast and Bladder Cancers."

We hope that this course will have attendants from the whole region of the South and East Mediterranean in order to extend the benefit of such course. Almost all medical specialties become concerned with the multidisciplinary cancer management. Hence, we invite specialists and residents from all fields to attend this educational conference. Moreover, senior consultants from the region are highly welcomed.

Behind *SEMCO* is the successful experience of "*ICEDOC's Experts in Cancer without Borders*" (www.icedoc.org) in many parts of the world. We believe that any regional scientific and medical activities should rise from the region itself. The role of *SEMCO* executives is to serve colleagues in the region and to enhance collaboration and cooperation with different regional and international organizations and societies. We are currently engaged in successive preparations of scientific events in collaboration with distinguished organizations in the world. We adopt the same principals of *ICEDOC* that we are not competitors, but we are collaborators. Our work is based on hand – in - hand cooperation.

There will be also satellite meetings for the advisors of *SEMCO* and personalities from international and regional organizations, as well as from international affairs office of NCI (USA) who are willing to collaborate with *SEMCO*. Our objective is to discuss how we can cooperate well together against cancer in the South and East Mediterranean region.

For the guests coming from the region and the world we hope that you have enough free time after the meeting to enjoy your stay in and tour Cairo and Egypt

On behalf of the executive committee members, we are looking forward to have the pleasure of seeing you in April 2007.
